

Please Return

June 17, 1971

Senator Hubert Humphrey  
Senate Office Building  
Washington, D.C.

Dear Mr. Humphrey:

I am keeping up with great interest the disclosures of deceit and deception and fraud as practiced by the regime of Johnson-Humphrey as to the horror of the atrocity Vietnam war - and with the pitiful rantings of yourself in attempts to extricate yourself from the matter.

I find your pitiful and pious plea of not guilty in the criminal Vietnam war to be utterly disgusting. You have for too long been calling for war in Vietnam and supporting military action there, supporting Hitler type dictators, to get off the hook - you will not get off the hook. You deserve to be brought to trial on war crimes charges along with Johnson, Rusk, Rostow, Bundy and the military people.

Your history of Vietnam involvement goes way back to June 27, 1950 when you publicly clamored for military aid to be sent to Indo-China when we got into the first chamber of Horrors - The Korean War.

March 31, 1954 you said: the loss of Indo-China would be a tragedy.."

April 19, 1954 you said it is 'unthinkable' to lose Indo-China.

May 11, 1955 you castigated John Foster Dulles for saying Indo-China is not sufficiently important to become a source of friction between the U.S. and France.

August 23, 1960 you said: "We have one of the staunch allies (in Vietnam) in the 'cause of freedom'."

August 17, 1964 in a "policy speech" at N.Y. Town Hall you said: "We must stay in Vietnam...We will not be driven out."

October 15, 1967 at Doylestown, you stated: "Our own security is at stake (in Vietnam)".

April 28, 1968 (TV interview) you stated: "...I have been in on most of the discussions where...high decisions were being given consideration..." and in response to a question you stated you supported the decision to begin the bombing of North Vietnam.

Nov. 13, 1967 (speech to Grocery Mfrs) you said: "We have no choice but to stand strong and last it out...for the futures of our own American children..."

Mr. Humphrey please do not come up with anymore of that pretense of shock and dismay about Vietnam - we won't buy it.

Sincerely,

Frazier T. Woolard  
Box 32, Washington, No. Car.
